About Us

Ever Green E-Waste Recycling Management is one of India's leading companies recycling electrical & electronic (WEEE) waste per Government guidelines. Our integrated, best-in-class technology ensures environmental safety and sustainability. We handle large quantites of high quality WE are able to remove all the components of an electrical item Including metals such as lead, mercury cadmium, PCB etc. without leaving anything behind. We are ISO 180 certifled that adhere to strict enviromental regulations regarding handling and disposing of hazardous praducts safely to keep our Enviroment GREEN!

Operating Since

Successfully recycling e-waste since 2020

ISO Certified

Adheres to strict environmental regulations for safe hazardous product handling

Complete Removal

Removes mercury, lead, cadmium, PCBs and all hazardous components from electrical items

ISO Certifications

Ever Green holds internationally recognized certifications demonstrating commitment to quality, environment, and safety.

ISO 45001:2018

Occupational Health & Safety Management System

ISO 14001:2015

Environmental Management System

Quality Management System

Certified for quality standards in recycling operations

Environmental Impacts of E-Waste

Improper e-waste disposal poses severe risks to human health and the environment. Toxic components damage vital organs, heavy metals contaminate soil and water, and pollutants spread through entire ecosystems. As a **CPCB & UPPCB certified EPR provider**, Ever Green ensures compliant, safe disposal.

What We Do

Recycling & Disposal

Recover base and precious metals with a zero-landfill policy, adhering to strict disposal norms

Metal

Metals melted in specialized furnaces, requiring less energy than producing metals from raw materials

Plastic

Plastics converted into pellets for new products, reducing energy costs and environmental impact of virgin material extraction

Paper

Save trees by recycling paper, which uses 40% less energy and water than producing new paper, reducing greenhouse gas emissions

Dismantling Offices

Handle disposal of office assets like furniture, AC units, and electronics, offering fair prices for reusable items

Physical Asset Verification

Assess e-waste inventories onsite, ensuring compliance with government regulations for proper disposal

Our Work Process

01

Inspection

Inspect and assess e-waste to offer accurate solutions

02

Reverse Logistics

Collect e-waste nationwide via our fleet and third-party logistics, tracking assets via e-manifest

03

Data Destruction & Degaussing

Secure data destruction through software or physical means, on-site or at our factory

04

Reconditioning & Refurbishing

Extend IT product life by identifying, sanitizing, testing, and replacing parts as needed

05

Recycling

Our facility processes 3,000 metric tons of e-waste annually, separating plastics, metals, and glass

06

Destruction Certificate

Provide a Disposal or Green Certificate after environmentally safe recycling

CERTIFICATES

Ever Green holds all required regulatory approvals from UPPCB and Government of India for Battery, Plastic, E-Waste, and Hazardous Waste operations.

#	Document	Approved By	Validity	Capacity
1	PAN Card	Govt. of India	NA	Proprietor / Owner
2	GST Certificate	Govt. of India	23-10-2020	NA
3	Battery CTE	UPPCB	2025–2030	10,800 MT/yr
4	Battery CTO	UPPCB	2025–2029	10,800 MT/yr
5	Battery EPR	UPPCB	2026–2031	10,800 MT/yr
6	Plastic CTE	UPPCB	2023–2028	9,000 MT/yr
7	Plastic CTO	UPPCB	2023–2027	9,000 MT/yr
8	Plastic EPR	UPPCB	Auto Renew	9,000 MT/yr
9	MSME Certificate	Ministry of MSME	NA	NA
10	E-Waste CTE	UPPCB	2025–2030	14,400 MT/yr
11	E-Waste CTO	UPPCB	2025–2029	14,400 MT/yr
12	E-Waste EPR	UPPCB	2025–2029	14,400 MT/yr
13	Hazardous Consol Waste	UPPCB	2022–2027	NA

Meet the Team

Our management team excels in sustainable recycling and disposal services, specializing in e-waste, plastic, metal, wood, and paper recycling, as well as office dismantling and asset verification. They ensure strict environmental standards and promote material reuse for a sustainable future.
